PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science student with a strong foundation in Core Java, Object-Oriented Programming, Data Structures & Algorithms, HTML, CSS, JavaScript, and Git/GitHub. Passionate about backend development and currently learning Spring Boot and modern Java technologies. Experienced in developing academic projects including ATM Management System, Currency Converter, and Student Management System. Seeking internship and software engineering opportunities to apply technical skills and continue growing as a Java Developer.

EDUCATION

Eshan College of Engineering

Bachelor of Technology (Computer Science Engineering)

Expected Graduation: 2028 | Current CGPA: 7.6

Roy Vidya Vihar School

CBSE Class XII (2024)

Percentage: 71%

Roy Vidya Vihar School

CBSE Class X (2022)

Percentage: 76%

PROJECTS

- ATM Management System:** Built a console-based banking application using Java. Implemented deposit, withdrawal, balance inquiry, and exception handling.
- Currency Converter:** Developed a Java application using Exchange Rate API. Supports multiple international currencies with a menu-driven interface.
- Student Management System:** Built a Java application for managing student records using OOP concepts.
- Number Guessing Game:** Developed an interactive Java game using Random class and exception handling.
